

I've been a professional broadcaster, writer and public speaker for over 35 years. Working with my niece for her ceremony helped me to see that I could use my broadcasting background to benefit other young couples. I offer a professional ceremony without the constraints other options might have. I am ordained by the Universal Life Church which is recognized in every county in Michigan. I can perform non-denominational or civil ceremony's. Finding the right officiant is important. The ceremony is the most important feature of your wedding day, let us create that vision for you.

I Do! (no ceremony)

You don't need to say yes to the dress, you just want to get married and get on with your lives together. This is a wonderful alternative to going to the courthouse and waiting all day to get married. Works well for couples who want to be legal and/or may also be planning a larger event at another date/time. You apply for the license and bring to me the day-of. I will legalize and then file as I am legally required to do. We provide you a standard ceremony that consists of delivery of the vows, asking all the necessary questions, signing of the license and taking or sending it back to the county clerk so you can enjoy your day and the rest of your life together. Includes a 30-minute consultation, but no rehearsal. Ceremony length averages 10 minutes.
