TRAVEL FEE

0-25	Included
25-50 Miles	\$25
50-100 Miles	\$50

FAQ

WHAT ABOUT GLASSES AND LIQUOR?

We are able to supply plastic glasses of various design. Drink Dress cannot supply glass glasses at this time. We are not able to supply liquor, but can supply non-alcoholic drinks. The Drink Dress takes about 10 minutes to fully load with over 70 glasses. The dress can hold stemmed and flat glasses.

WHERE CAN DRINK DRESS GO?

The metal cage is 52" wide at the base, so she needs a bit of space in the environment where she will be serving. However, the Dress itself collapses, and can be brought through any doorway or elevator. The dress is on wheels, so it can be rolled on a flat surface, including carpet, wood, tile, and concrete. More extreme surfaces limit her movement.

WHAT COLORS ARE AVAILABLE?

We currently have red, black, and white skirts that go under the metal cage dress. These skirts can be combined with a corset: light blue, black, champagne, green damask, and red damask. The embellishments on the corset and the head piece the model wears can be any color, or colors you desire. See photos of some color combinations at www.drinkdress.com.

If you would like a custom dress made for your event, contact us and we can see what we can make for you!
