Established in 1996 with (Over 600 weddings covered since 1994, from San Francisco to Italy)

Each Package includes:

Wedding-Planning Consultation from a Photographer's Perspective, to help your big day go smoother, with less stress, more fun, and great results.
Professional Camera & Lighting Equipment used.
Backup equipment (just in case!)
Website Gallery with High-Res printer friendly .JPG Images, with permissions to download and have edited or printed, by anyone/anywhere you desire.
Touch-ups if needed, the number of touch-ups depend on which package you go with.

Packages:

#1: Up to 4 Hours of Photography Coverage: which includes all the above mentioned, plus up to 30 images for touch-ups, plus a website gallery of high-res images. \$700.00

#2: Up to 6 hours of photography coverage, with up to 40 touch-ups, plus a website gallery of high-res images. \$1,200.00

#3 Up to 10 hours of Photography Coverage with up to 60 touch-ups if needed, which includes a 1 Hour Engagement Shoot at the location of your choice, a Framed 16x20 for your guests to sign at your reception, plus a website gallery of high-res images, and up to 12 of your selections for touch-ups, if needed for the Engagement Session. \$1,800.00

Most agency wedding studios offer 8 hours of coverage for around \$1500.00, but then make you pay for print orders, custom designing time of your albums, etc. Because of that, many people try to cram a whole wedding day in that time, but end up booking additional hours for a lot more money, and end up spending 2x with marked-up print sales, when everything is said & done.

If you book with me, my service to you is much sooner than from them, because you are working directly with me, not through company sales people, trying to get you to spend more and more, beyond your budget.

Regarding 2nd Photographers, or Videographers, I recommend specific vendors who I have worked with, rather than who ever is available (regardless of experience), for the best coverage of your big day, without them getting in my way, and ruining your pictures, that is, if you really feel you need to have a 2nd shooter. The vast majority of my weddings have been shot entirely by myself. There are few situations where a 2nd shooter is actually helpful. In many cases, the ones I've worked with from the studio agencies, cause confusion, and disrupt your event more than just having 1 photographer present.

Wedding & Engagement Portfolio: <https://jpphotographer.smugmug.com/Wedding-Highlights/Newer-Wedding/>

For over 20 years, I have serviced thousands of clients in Northern Illinois, and the greater Milwaukee area, with my affordable, yet professional photography. I am available locally, plus domestic or international travel. I may not offer the lowest prices in town, however my work doesn't reflect the lowest-priced photographer on the list.

I've worked for Agencies, Newspapers, Magazines, PR Firms, Communications Companies, Mom & Pop Small Businesses, Fortune 500 Companies & the General Public. I offer a 10% discount to clients who are actively serving in our military forces, including reserves!

I take pride in Making People and Things Look Good for a living.

Fully insured, established in 1996.
