Cancellation & Refund Policy

Non-Refundable Deposit: Sometimes life happens and you need to cancel. I completely understand that and that's not a problem. However, the non-refundable deposit is exactly that, non-refundable.

Delays: Delays by the bridal party that prevent me from completing the makeup applications of the entire party within the set time frame will constitute a non-refundable deposit. I work very hard to accommodate every lady, even with delays, without being late for my next scheduled client (if any).

Additional Service Fees: Any additional service fees listed under the "Additional Service Fees" section will be refunded upon cancellation.

Cancellation and Delay due to Professional: If for any reason I have to cancel an application due to my delay or my unforeseen circumstances, I will refund your money.

Please understand due to the nature of the wedding season that when I book an event, and by the actual day of event, I will have already turned at least one potential client away requesting the same time slot. If you later cancel your appointment turning away that client costs my company a substantial amount of money. Thank you for your understanding.

I am happy to connect to answer any follow-up questions or describe any of the services and pricing in more detail. I sincerely hope to provide an excellent customer service experience and be a part of your special and important day. I look forward to hearing from you.
