WEDDINGS & PORTRAITS

# the wedding guide

## photography, is timeless.

You've spent hours, days, and maybe even months already planning for one of the biggest days of your life. The flowers, cake, decorations, guest list... so many decisions!! I guarantee that all your hard work preparing *will* pay off. It's going to be the most *beautiful* day of your life. You *dream* of this day now but after it's over I guarantee you will continue to dream about it and replay it in your head over-and-over. Photography is a beautiful thing, because it allows us to capture all those details and special moments from your wedding day...allowing you to *forever* dream of the day. I strongly believe photography is the most important investment you can make, especially on your wedding day. On your 10th and 50th anniversaries, you'll look back at your photos and relive the day. Someday you'll show your children and grandchild the photos and they will be able to give them a glimpse into the special day.

As a photographer I strive to capture photos that tell your wedding story from start to finish. All the details and decorations are important in telling the story but my favorite photos are those that capture the emotion of the day. My goal is that you'll look back at the photos in years to come and become overwhelmed with emotion of how beautiful the day was.
