

Here at Tovicand Photography, we custom build wedding photography packages for our bride and groom. No two people are alike, so your wedding package shouldn't be either. We work with our clients, one-on-one, to customize a photo package based on *THEIR* needs, not ours.

Pricing is primarily based on the following:

- -Number of hours of photography
- -Number of retouched/edited photos delivered
- -Number of locations/travel required
- -One or two photographers
- -Prints desired
- -Album desired
- -Engagement Session desired

We will work with you to custom build a photography package that works for you!!
