Questions

HOW FAR IN ADVANCE SHOULD WE BOOK?

We suggest booking your wedding photographer 8-9 months in advance. In some cases that simply isn't possible, so we suggest booking as soon as you have a date, time and venue set.

DO YOU TRAVEL FOR WEDDINGS?

Yes, we are happy to travel for your event. The cost of travel and reasonable accommodations can be added to our standard wedding package pricing.

WHEN WILL OUR IMAGES BE AVAILABLE?

Online viewing galleries are typically completed within 6 weeks of your event date. USB deliveries are guaranteed within 8 weeks of your event.

WHAT IF MY EVENT GOES OVER OUR CONTRACTED TIME?

We understand that events don't always go as planned. If your contracted time is up, but your event is still underway, we are happy to stay. At the end of your contract time, we will ask you if you would like us to extend. If so, we will charge our hourly rate and round it to the next 1/2 hour increment.

WHICH PHOTOGRAPHER WILL BE SHOOTING MY WEDDING?

Stephanie will be the primary photographer for all weddings. Depending on the size of your wedding, a second photographer or an assistant may also participate. If another photographer will be participating, you will have the opportunity to view their work prior to your scheduled shoot date.

DO YOU OFFER VIDEOGRAPHY?

My specialty is wedding photography and I focus all of my time and attention on capturing your event through photos. We do work with a wide variety of wedding professional and are happy to team up with one of our suggested videographers. Just let me know when you book that this is a service that you would be interested in.

DO I ORDER MY PRINTS THROUGH YOU?

You are welcome to order your photos or other memorabilia from any print lab. Please note that, while the cost of printing with your local photo lab may be enticing, retail printing services are non-archival which means that they will not retain their quality over time. You may also notice less than desirable color results, as they do not always calibrate their equipment for an exact color match.
