My Approach

My approach to wedding photography is fun & candid with a focus on providing the best experience for the couple to enjoy each moment. Stylistically, I keep the colors warm, yet natural, with a film-like quality.

I prioritize you, being in *your* moment, and this is the best way to get those authentic and timeless photographs that feel genuine - because they are.

All collections can be fully customized to best fit your needs.

Let's collaborate to create your perfect package and talk details.

Please note that I do not book more than 12 months out or photograph weddings with more than 150 guests. After over a decade as a professional wedding photographer, I have learned my best work is done at smaller weddings.

Thank you for your understanding!

FAQ

Do you charge sales tax?

Because I'm providing a service and a digital product I don't have to charge sales tax. Woo-hoo! This is also why I no longer provide USB drives, prints or albums. However, I'm happy to suggest the best companies for making your own printed keepsakes.

Why 150 guests or less?

2020 made me realize I create my best work during smaller weddings. To better focus on the couple and provide the intimate images I'm known for, I've found it's ideal to keep guest count low.

How long can I access my online gallery?

Galleries are hosted for 10 years from the publishing date. You, along with whoever you send the link, are able to download, print, and share directly from the gallery. As the client, you have special permissions to hide photos or password protect your gallery. Photo delivery is 6-8 weeks after the wedding. A sneak peek is provided within 7 days.

Can I add a 2nd photographer?

For sure. The cost to add a 2nd is \$75/hour. I'll let you know if I think it's necessary based on what you have planned.

Do you photograph elopements?

Small weddings and elopements are my favorite. If you're planning something super low-key and need less than 5 hours of coverage, get in touch and let's talk.

"Hannah's work captures those fleeting, beautiful moments you want to remember. She's also wonderful to work with! I'm not usually comfortable getting my photo taken and she encouraged my husband and I to ignore the camera be in the moment and I felt super relaxed and able to soak it all in." -Shannon & Adam

We'll begin with a phone call or video chat to get to know each other a bit more and determine if we're a good fit. From there, I'll gather some details about what you have planned for your special day to settle on a collection and hours of coverage.

To secure your date, we'll both sign a digital contract and you'll pay 50% of the package price. All payments are accepted electronically and the remaining balance is due six weeks before the date of the wedding.

This is a collaborative effort and I won't ghost you once the contract is signed. I'm happy to recommend my favorite vendors, assist with building the timeline, and all the little things in between.
