ENGAGEMENT SESSIONS

A photograph of a young Black couple embracing outdoors at sunset. The woman has voluminous dark curly hair and is wearing a dark top and a patterned orange scarf. The man is wearing glasses and a dark button-down shirt. They are both smiling and looking down at each other. The background is a blurred outdoor setting with a warm, golden light from the setting sun.

Engagement Sessions are one of my favorite ways to get to know the two of you. I want to run through fields, laugh till it hurts and frolic in the sunset, all while creating images you will look back on for a lifetime.

Engagement sessions usually last around two hours and are booked during the weekdays at either sunrise or sunset. I recommend no more than one outfit change and most of all for you to wear something you feel comfortable and glamorous in.

KIND WORDS

“If you want a photographer who will not only give you AMAZING pictures, but also one who will put you at ease and make you feel like it's just your friend taking pictures, than Justine is the woman you need!”

“Justine knows how to use light and her surroundings to create the most stunning pieces of art. My favorite thing about Justine's photography is her way of capturing beautiful candid moments. Justine isn't your typical wedding photographer in that she didn't have my husband and I pose in a bunch of cheesy positions, and that is exactly why we chose her to begin with. Our photos looked very natural and artistic.”

“Justine brings a unique perspective that helped tell our story”

“Justine was the perfect addition to our wedding day and we have received so many compliments regarding her work and how professional and kind she was.”

“Justine has the ability to add a personal touch to everything and made us feel completely at ease, which was fantastic.”

“AHHH JUSTINE WE ARE IN LOVE WITH YOU!!!!”

“AMAZING! IM DYING! NOW DYING FOREVER!”

“Thank you for being our ideal photographer, Justine. You synched up so well with us and captured the love, energy, and fun of our family by being all those things yourself.”

“Justine's personality is noteworthy. On our wedding day she was very calm and collected and also warded off our nerves by cracking jokes and smiling the entire day”

HEY! I'M JUSTINE!

Oh gosh, lets see... I am equally as awkward as I am inappropriate, which basically means I have the unintentional gift of laughter. I am in love with celebrating life and will take any opportunity to experience or learn something new. I enjoy running all of my errands on my bicycle and both of my thumbs are kind of green, haha. I spend most of my spare time adventuring with friends and I am an avid bath taker as well as a champagne enthusiast.

Cheers!

WEDDING DAY TIPS

- Become obsessed with natural light. Try to position yourself in rooms or areas that have a ton of it. This is really helpful while you are getting ready or planning formal locations.
- This day is about you. I want you to spend as little time as possible doing hard work, and the most time enjoying your people and dancing your socks off. Because of this I do limit family portrait time and ask that a list is prepared of family shots prior to the wedding day to keep us organized and efficient.
- Some of the very best outdoor light happens at the end of the day. Sunset is one of my favorite times to escape with you both and make some magic. Consider what time sunset will be on your wedding day, and where that falls in your timeline. Whether it is immediately following dinner, or right before your first dance, be ready to hop outside one last time.
- Embrace the elements. They bring more rawness and emotion to your story. Don't be afraid to kick off your shoes and let loose once all of the formalities are over. The suit, the dress, your makeup, they only last so long. But these images we will create? They will carry on forever.
- Take at least five minutes for just yourselves. This day is going to be a crazy whirlwind of emotion and chaos and FUN. Everyone is going to be pulling you in opposite directions to take a billion iPhone selfies. Step away with each other just for five minutes. Take a couple deep breaths, look around, look at each other. This is actually happening, you're totally MARRIED.

"I'll love you with every little bit of everything, that has ever consumed me. and I will forever love you, and forever find you in every life time and so on. until the stars die out and the universe leaps. but even then, my love with remain."
