

WELCOME TO YOUR PERSONAL

CLIENT PRICING GUIDE

WEDDINGS OF 2020 | 2021

Welcome to your personal Client Pricing Guide - I'm thrilled you're here!

If you are looking for a photographer that captures the in between bits, the raw moments, the tears, the laughter, the candid, and the messy, uncensored beauty of love, then we would be a perfect match!

Your wedding photos are not just point and shoot poses synthetically put together, they are the moments that you never want to forget. Your first kiss as Mr. & Mrs., your grandparents crying while you say your vows, your lil nieces and nephews dancing, your parents speaking words of encouragement to you as you get ready. For those moments, you need someone you can trust.

That's is why I created this guide, so you can see just how much I pour into you and give you the best experience. It's not about how much your paying, but about how much you are getting. So lets get started!

xx,
Makenna

Jake + Isabella

Makenna Brylee was so great and professional! Every time our friends see us they bring up both our engagement and wedding photos! She took her time and money to travel 3 hours with us to the desert and she was so happy and kind about it! The day of our wedding she went to 4 different locations around San Diego to get the exact pictures we wanted. Not only did she execute everything we asked of her, but she helped direct us and do additional photos we never knew we would even want but then loved! She had our first look for us in less than 24 hours!

Sterling + Marissa

I love Makenna's eye for things. She captured all the special, romantic, sweet moments of our day. She was super helpful, flexible to make what we wanted come to life and her creative eye is all time. We're glad we booked her to capture our special day.
