## WHEN STRANGERS TURN INTO FRIENDS...

"Dana overall was absolutely the best choice I could have ever made for my wedding. She is not only an incredibly talented photographer but an incredibly thoughtful and kind person. We had her take both our engagement and wedding photos. My husband and I had never taken professional photos and with our first shoot, we were completely comfortable taking very personal photos together. She made the whole world disappear and we had such a fun time being together enjoying every moment together. Her business can also help with all sorts of other printing needs including saving the dates, invites, menu cards, poster boards for the day of - totally excellent. Then the wedding day...oh my goodness...her organization and attention to details were so amazingly helpful! She had timers set for when we needed to move to our next destination and picked up on so many little decor details and put together some truly artistic shots I never knew she was even taking throughout the day. It was such a joy and a surprise to see what a unique eye she has for detail when our final album came through to us. Not only was she on top of all of the photography, but she knew everything about our day, keeping in touch with our coordinator and my husband, keeping us feeling comfortable and happy that everything was coming together. Sincerely best choice I could have made she is organized, thoughtful, timely with photo turn around, great options for printing and albums, and all around a great woman to work with on such a momentous day of your life.

Wholeheartedly recommend Dana!"
