## 02. ABOUT ME

So glad to meet you

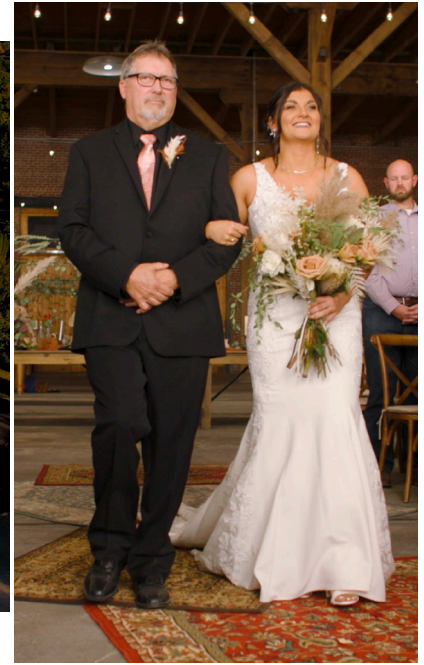

I'M STEVE WEBER

I am a wedding filmmaker located in Jacksonville, Illinois. I have been married over 30 years and have raised two amazing kids. I worked in the corporate world for 30 years and finally decided to follow my dreams and started Steve Weber Films in 2016 to provide one of a kind wedding films for couples everywhere.

I turned my passion for videography into a full time career of capturing and telling the unique love stories for all types of couples. From barn weddings to ballroom and biker weddings, every story is different and that's why I love doing this job. Everyone deserves to have their wedding day captured and everyone deserves the best possible experience

# 03. HOW DO YOU WANT TO REMEMBER YOUR WEDDING DAY?

You will spend a lot of time deciding on all the different parts of your perfect wedding day. From your dress, to tuxes, colors, flowers, vendors, venue, time of year, invites, guest list, etc. There are so many moving parts to make a successful wedding day happen. When your day finally gets here, how do you want to remember each and every moment and decoration?

You only get one chance to capture your wedding day and you need the right person to do that. Someone who understands how to work as a team with other vendors and who understands the importance of the day. Ask yourself, when my day is over, how important is it to be able to remember every celebration worthy moment?

## 03. MY METHOD

My goal is to make your wedding day and experience unforgettable. I want you to look back and say that hiring me was one of the best decisions you made.

Your wedding day is as important to me as it is to you.

I mean that 100%

You will spend a lot of time and money planning the perfect day. YOU deserve to have a perfect wedding film that you can enjoy for a lifetime

I attend your rehearsal, and I start bright and early on your wedding day. I'm with you all day long capturing all of the behind the scenes moments that you will never experience again. All the sights and sounds of your day, things that will be a blur when the big day finally arrives. My philosophy is your wedding day will be full of celebration worthy moments, and I want to create a legacy wedding film that can be passed down for generations to come.

## 05. Testimonials

Steve was better than we could have ever imagined for a videographer! He was at our rehearsal to ensure that he knew where he would want all cameras and microphones places for the best coverage, instead of simply waiting and rushing around the morning of our wedding. We loved that he had shot other Catholic weddings and assured us that he understood the sanctity of the Church. He had our highlight film all ready to go just a few days after our wedding, and all of the videos ready within a month after our wedding. I highly highly recommend having Steve as your videographer for your wedding! I couldn't have hoped for anything better!!

We'd like to give our highest recommendation to Steve Weber. Being Steve's first ever indian wedding coverage, We were super impressed with the kind of research that he put together prior to our wedding in order to make sure he was well aware of the ceremonies and rituals. Steve's professionalism is commendable and the deliverables we received talk for itself. Our wedding highlight has already been so much talked about and how every moment was captured so well. None of our guests felt left out and neither did we. Choosing Steve for our wedding coverage was best decision ever.

Steve was the most incredible wedding videographer we could have ever asked for! If you are considering him, PLEASE just book him! I promise you'll be so glad you did! From the moment we first spoke, it was obvious that Steve \*really\* \*truly\* cared

about making the absolute best wedding videos for our day. He understood the importance of his role and went above and beyond in every single way. Our wedding was an Iranian wedding, and although he had never been to/filmed any such event, he did thorough research to make sure he understood every aspect of it and communicated with us thoroughly to make sure he captured everything we cared about. The day of the wedding, he was there super early and was there to support both of us in every way (not just videography :)) The final wedding video was more beautiful than we could have imagined, with all the little touches that we asked for (specific shots, special music, etc.), and he EVEN went above and beyond to TRANSLATE the ceremony speech so that the video would flow well with the overlaying words/poetry. I was astounded. All of our family and friends were absolutely wowed by the highlight video and we will treasure it for our entire lives to come. THANK YOU STEVE!!!!!!!!!!!!!! AND all of that for a fraction of the cost of other supposedly high-end videographers in the Chicago area. Seriously, if you're considering booking Steve and he's available for your date, DO NOT HESITATE! Even if he hasn't done videos in exactly the style you're looking for, \*trust me\*, he will figure it out and execute perfectly.

## 06. WHY SHOULD YOU HIRE ME?

You only get one wedding day and one chance to capture all of the celebration worthy moments that day will produce.

When you hire me, you hire someone who really cares about making your day PERFECT.

### **I PROMISE YOU**

I will go above and beyond the title of videographer. At the end of the day after everything is said and done, I want to be considered a new friend and someone you can trust to take care of you, not only leading up to your wedding day, but the entire wedding day itself and forever thereafter.

I am dedicated to make this experience one of the best in your lifetime, something that you will remember forever and be grateful for after everything is done.

Your wedding film is a way to be transported back to that exact moment in time where your journey began, allowing you to remember the reasons you made those vows to one another.

This is a big responsibility and I don't take that lightly.

I truly care about your wedding day as much as you do, I AM NOT someone just looking to get paid and move on to the next one.

### **NOBODY ON THIS PLANET HAS A LOVE STORY LIKE YOURS!**

I want to help you capture and tell your unique story in a beautiful, emotional wedding film.

You deserve to have a legacy wedding film that can be passed down for generations to come.

A mini-movie where you are the stars.

A one of a kind cinematic wedding film that your kids, grandkids, great-grandkids and beyond can enjoy.

A time capsule where they can see and hear their origin story directly from you, in your words, hearing your voices.

### **THAT'S WHAT I CAPTURE FOR EVERY SINGLE ONE OF MY COUPLES**
