#### *Wedding Wire Reviews:*

LaToya and her assistant knocked it out the park. She became fully invested in my wedding and cared for it as if it were her own. Very knowledgeable and she provided solutions to all my issues. As my Day Of Planner, she was accessible by text message at all times and gave me so much of her time and attention. She always made me feel like my wedding was a priority, which is why I was able to trust her with no questions asked. We had a wedding party of 10 people and she managed the rehearsal completely and caught everyone up to speed, which made life very easy for myself and my husband. During the wedding I had a guest behaving inappropriately during dinner and LaToya handled it immediately with the delicacy and professionalism I needed. The vast majority of my wedding was "DIY" which meant LaToya and her assistant had to take on a lot of the projects themselves on the day of the wedding, and they did a great job. I would highly recommend LaToya to any bride who needs someone they can depend on at a great value!
