INFORMATION

- Please inform me of preferred musical repertoire (specific songs, styles, atmosphere, etc.)
- Please inform me of any other hired musicians and what instruments
- The ALLEGRO package, as well as the individual Composing and Arranging option includes me creating arrangements of pieces for myself and/or other musicians present at the wedding, often preexisting music that requires re-instrumentation AND/OR an original composition created for your wedding
 - I am trained in music composition and offer original compositions for your events that represent your marriage and your love and connection. I ask that you provide me with a desired instrumentation, general atmosphere or style, desired length, any personal information you are willing to share about your relationship or each other to allow the piece to be highly personalized, and any other information you want me to take into account when composing (inside jokes, favorite places, names, important motifs, etc.)
