

Bernd Zeugswetter Photography

Listed below are the wedding packages that I currently offer. Please feel free to contact me for individually tailored packages.

If your wedding plans follow a different format, I am happy to consult with you and work at creating the right photography coverage to suit your needs.

Wedding Packages

The Elopement Package

includes 3 hours of coverage, the edited high-resolution images, and the hosting of an online gallery for \$950.

The Middle Package

includes 8 hours of coverage plus a second photographer, the edited high-resolution images, the hosting of an online gallery, and an engagement session for \$3900.

The Full Day Package

includes coverage of the entire wedding day without any time limits and a second photographer, the edited high-resolution images, the hosting of an online gallery and an engagement session for \$4900.

Engagement Sessions

To book an engagement session by itself is \$450. Engagement sessions usually last 2+ hours during which we can visit a couple of different locations or hike to remoter ones. It's a great way for us to meet and get to know each other before the busy excitement of a wedding day.

Guestbooks

can be made from a selection of photos from your engagement session for \$450. Enough time between shooting the engagement and your wedding is necessary to have the book be finished in time.

Wedding Albums

are available in different styles and sizes and vary highly in price, starting at \$1200 with 30 spreads (60 pages) at 10"x10"

APPROACH

My approach to wedding photography is documentary style, which means that I try to capture your story as it happens.

While this approach means that I focus on candid shots, everyone usually wants to do some formal group shots as well. I try to keep these as fun and relaxed as possible and we'll go over your wedding timeline prior to your big day to figure out the right timing and time needed for these shots. Doing so helps make this part go as quickly and smoothly as possible. Count on a few minutes for each group shot.

On your wedding day, I'll work as considerately and unobtrusively as possible. After all, I want to capture your moments and not get in the way of the flow of your day. That said, I will not go completely unnoticed and if I see some amazing scene unfolding or a fleeting cloudscape, I'll be sure to ask you if you'd like to step aside for a few moments to take advantage of it.

PHOTOS

All packages come with rights-released high-resolution images.

At a typical wedding, I shoot a couple thousand pictures (even more if there is a second shooter) and afterward reduce that number to at least the best 400, but usually more like 500 to 600 (dependent on the length of the wedding. About 50-70 photos/hour) The remaining shots are outtakes and are discarded immediately.

I shoot only in RAW files, which is a digital negative.

This format gives the most latitude of dynamic range and detail. RAW files are not ready to be viewed or printed and first need to be 'developed' using imaging software. Your gallery and download will contain the optimally adjusted and developed images ready for viewing and printing.
