# what to expect

I bring my 12 years of experience to your wedding.  
I know how to put you at ease if you're nervous about having photos taken and I'm here to help you every step of the way.

We might dance

We might just talk

We might sneak attack each other

We might try accents

We may twirl

But no matter what...

I'm there to capture every precious  
moment of your special day.
