

Tina Marie Photography

2022 Wedding Packages

Thank you so much for contacting me. I would love to photograph your wedding. I enjoy every minute of the day with my bride, groom and their families.

About Me: Let me introduce myself. I'm Tina of Tina Marie Photography. I have been shooting professionally for 8 years after leaving my teaching career. I started my business my last year of teaching but have been playing with photography since high school. I have always loved capturing great moments and especially candid shots that reveal a person's personality, shows love, and tells a story of the moment. I never stop learning and take many continuous education courses in DSLR photography, webinars, styled shoots, and self-education through photography sites.

My Style: When it comes to wedding photography, you have a lot of choices. Finding the photographer that is able to create the images you want and you feel confident in is a whole other ballgame. My photography style is a combination of traditional, creative, photojournalistic images. I love color with an emphasis on light. I direct certain poses but will catch spontaneous occurring interactions that tell your story. I get you to move a bit to snap the motion. I work in the background often and shoot what happens naturally. This allows your photos to show how your love feels – raw and real. I love using my lenses to create beautiful aesthetic shots. I'm very flexible and easy going because I understand that it's your big day, once in a lifetime celebration, and want you to love every moment and soak it in. I'm open to your ideas, vision, and photo suggestions if you find something online you love.

WHY CHOOSE ME?

- * I have Top Pro status with wedding sites and have earned this status by maintaining 5/5 stars, responding quickly, being professional, and catering to my clients throughout my presence on the sites.
- * Your day is important to me, and I care about your experience with me.
- * I want your photos to be the most precious tangible memory you have of your day.
- * I love capturing your story for you to share with others.
- * I provide high quality service, flexibility, and patience of an angel. (insert smile here – I was a middle school teacher after all.)

- * My style encompasses a combination of classic, timeless, candid, and creative shots with color and light as an emphasis.
- * My reviews are top of the line 5s across the board.
- * I have social media business pages, google and yelp presence, and a website that offers prints from a pro lab.
- * I am organized and provide tips to help with the stress of the day, a photo checklist, a timeline helper, and a payment plan.
- * I run my photography business like I'm the customer and want to be treated.

Investment: Ask anyone what the best investment for their wedding was, and they will 99% of the time tell you it was the photographer. Why? Because photos preserve a lifetime and hold memories and decorate your house and provide personal gifts for people. My fee for your investment is an all-inclusive package. Couples today are looking for different things and have the option to create the experience to make it their own. Couples may want the whole day covered (typically, 8-10 hours) to document the hair design, makeup application, time with bridesmaids, groomsmen, flower girls, ring bearer, immediate family members (mothers, fathers, siblings). This time gives me the opportunity to catch photos of bride and groom relaxing with their attendants and having a little fun before the ceremony; time to get group shots and 1st look/1st touch (if wanted), reading of notes, etc. Also, documenting all the details you have spent a lot of time planning, buying, creating, etc. is very relevant as well. However, other couples wish to have a smaller, intimate ceremony that doesn't require a long period of time. Whatever your vision is and how long you need me to cover from the beginning to the end of reception to the send-off of bride and groom is your wish and my command. I offer a multiple of packages to fit your wishes and will adjust packages to accommodate your plan if possible. I like to do any individual photos of bride and groom on the day of the wedding since hair and makeup is done, you are dressed to the nines, and you have flowers, etc., but if you want a separate bridal session, we can do that with an upcharge.

Weddings are expensive, and you want to make sure you spend your money wisely and get your money's worth on all the details. The one important thing I would say about wedding photography is that your photos are the only tangible things you will have 10, 20, 50 years from now that bring back the memories of your special day, and the only things that will hang on the walls or sit on the shelves in your families' homes for generations. Think about how much you are spending on other details in your wedding that will be gone after this one day. Then, remember, the photos are the one thing that will keep on giving over the years. So, having said that, here's a breakdown of the packages for you to choose that will cover all the important photos for you.

Amethyst Package – 4 hours, \$1200.00 (Recommended for short day of ceremony and reception only.)

We can discuss what all you are wanting covered and possibly adjust a package to fit your needs. These are flexible.

The Process: After you decide to book me for your wedding photography my process begins. I will send you an initial questionnaire to gather important information about you, your fiancé, and your plans as you are beginning to make them. I use a software called 17Hats that it will be coming through. This sometimes goes to spam at first, so check there if you don't see it in your inbox after I notify you that it has been sent. When I receive your initial questionnaire, I will write up your contract and send to you for signing, and at this time, you will need to make the nonrefundable 30% deposit. About 30 days before your wedding, I will need your next payment which is 35% of the fee, and I will begin sending you other information gathering forms like a final questionnaire, a tips sheet to help alleviate anxiety on your day, a photo checklist for family and wedding party formal photos, and a timeline for the day. I will also need you to mail me an invitation suite, so I will have it on the day of the wedding to photograph with details,

so you don't have to remember to bring it with the other many things you have to remember. All of this helps your day go as smooth as possible. On your wedding day, I will show up and work the magic in photographs. About a week after your wedding, I will send you a sneak peek of photos taken throughout the day and request the final 35% of your fee. Your fees may be made through apps like Venmo, Zelle, Apple Pay, Cash App, or you may pay by check, money order, or cash. Whichever is convenient for you. Your photos will be in a password protected gallery on my website with the ability to share and buy photos from a pro lab. You may download the photos from the gallery to share and print as you wish.
