Wedding Investment Guide 2015

Hi!

Thanks for considering Christi Falls Photography for your upcoming wedding! I'm thrilled to have had the privilege of photographing some amazing days for so many people, and I'd love to document the beginning of your life's adventure as well!

My photography career has been varied, which has shaped my style into a unique blend. I studied fashion photography, photojournalism, and lighting in college. I was intrigued by mixed lighting and long exposures (you may notice I still love to play with sparklers, fireworks, and night photography!)

I started out as a photojournalist and writer for newspapers, and moonlighted as an assistant photographing weddings back before digital cameras were a thing.

After a while, I went to work in a film processing lab and then ended up in a fashion portrait studio before getting married myself and going out on my own.

Through the years, my style has evolved into a blend of documentary photography and creating beautiful and dramatic portraits. This way, you have the unscripted, genuine moments as well as gorgeous art images where you look your best.

I look forward to creating images you'll enjoy for your lifetime together.

Christi
