Flower Girl baskets start at \$39

Flower Girl hoop bouquets start at \$39

All brides sign a flower contract stating what I will be designing for them along with a required down payment. These have to be in place before an order goes on my calendar to start. The down payment is used to purchase some of the materials needed to start your order and will be deducted from your balance due when flowers are completed. The down payment will vary depending on the size of your order. This is nonrefundable to protect myself from losing any personal money. If circumstances change and you need to cancel, as long as I haven't purchased materials and a legitimate reason for canceling, I will be more than happy to make a refund.

SHIPPING POLICY:

We ship our packages either UPS or USPS. Each order will be provided a tracking number once your flowers/accessories start its shipping process. Please feel free to contact me if you need your tracking number and we will be glad to get it to you. We are NOT responsible for packages once they leave my office. Once we provide you with a tracking number, unfortunately it is out of our hands and up to you and UPS or USPS. It is the buyers' sole responsibility to keep track of their shipment. Please make sure you provide me an up-to-date address to insure accurate delivery of your package. Your order will ship to the address you provide me with. In the event we receive a package back in the mail, we will automatically contact you and you will be required the additional shipping charges to have it reshipped.

FREQUENTLY ASKED QUESTIONS

Am I obligated to purchase if I request a price quote?

Np. Definitely not! I try my best to keep my arrangements affordable, but if they are out of your price range, please let me know and we can discuss options that work for you!

Why choose artificial flowers over real flowers?

The best part of artificial flowers is that they stay beautiful forever! They are maintenance free, so on your big day you don't have to worry about special treatment, watering, or wilting in the sun or in freezing temperatures. They are also ideal for destination weddings! If you are allergic to real flowers, which I have had several brides, this is a great alternative for you! You never have to worry about running noses or itchy eyes. Since artificial flowers last forever, they make great keepsakes and can be repurposed into other decorations. They are also cost effective and cut down on unnecessary waste created by real flowers that are only used for 1 – 2 days and then thrown away. And finally, silk flowers are stress free. Silk flowers can be made in advance so you know exactly what you are getting, which gives you peace of mind.

I don't see a flower design that I like. Can I customize my own?

Yes you can! Contact me with the colors and an example picture that you would like and I will get back to you with a price quote on something similar I can create.

What types of floral arrangements do you make?

Bridal bouquets, both cascading and boho, hoop bouquets, boutonnieres, wrist corsages, flower hair combs, dog floral colors, flower kissing balls, flower girl wands, flower girl baskets and garter sets.

How far in advance do I need to contact you?

You may contact me to order your flowers as soon as you set your wedding date! I take orders on a first come first serve basis so the spring and summer are usually pretty busy for me. Typically customers order 6 months to 1 year in advance. If you are planning an elopement or last minute wedding, I can usually get personal pieces done in 1 – 2 weeks (bouquets, corsages, boutonnieres). Keep in mind; I will not have time to special order flowers so I will have to use ones already in my stock or buy locally. This may limit your design options. If you choose to wait to order, I may no longer have availability and may not be able to create your arrangements. Orders are only confirmed once I receive a deposit and signed contract. Silk flowers stay beautiful forever so there is never a wrong time to order them.

How do I place an order?

1. Contact me with a color scheme, picture of the arrangement(s) you envisioned, and the quantity.
2. I will give you my average price quotes.
3. If you like the price quote and want to book, I will email out a flower contract requesting both an email address, mailing address and phone number. Your deposit is determined by how large your order is.
4. Once I receive you signed flower contract back along with your deposit, your wedding date goes on my calendar. I will not begin working on your arrangements until payment has been received. NO EXCEPTIONS. Receiving a price quote or verbally saying you want to order does not place your order.

How does the design process work?

All flower arrangements are one of a kind and made on demand, so it is nearly impossible to recreate something exactly. So when you send me a picture of a design you like, it will not be an exact copy. I will use my best judgement to pick flowers that match closely and then arrange the flowers in my own

unique style. So at time of ordering, you will tell me the color scheme, size, design and flowers you like/dislike, and then from there I will use my florist eye to create an aesthetic flower arrangement myself. All flower stems are carefully selected and arranged in the most realistic way possible. Please take a look at the floral arrangements I have already created to decide if my floral design is right for you! Since I work with silk flowers, seasonal flowers may be a concern depending on type and what store provides them. It is important to note that some specific flowers you may see in my photos may have been discontinued or no longer available, so I will do my best to find an alternative. Higher quality flowers do cost more, so special order flowers will add an extra cost to your order.

Can I speak to someone to discuss what I am looking for?

Yes! My name is Ruth and I am the owner/designer and the only employee in the business so I design and build all flower arrangements personally. I am located in Allison, Iowa so if you are local, we can meet in person to discuss your vision. But if you prefer, we can schedule a phone call to discuss in detail what you are looking for.

How long does it take to complete an order?

It depends on the number of pieces you order, but typically it takes about 1 – 4 weeks to order all the supplies and then 1 – 4 weeks to create the arrangements. It is possible to create arrangements in less time, but options may be limited. I complete orders based on wedding date, so if your wedding is 9 months down the road, I may not get to it immediately.

What do your prices typically look like?

Please contact me to request my Average Pricing Guide to see specific prices. These prices are an average and may fluctuate depending on size of arrangement and types of flowers desired. It is important to note that higher quality flowers do cost more. So using highly detailed and special ordered flowers will add an extra cost to your order. I will always try to do my best to work with your budget and we can discuss option that work for you!

Can I see the arrangements before I receive them?

Yes! I like to keep the communication open. I will usually put together a rough draft first and send a picture for your approval. If you like it, then I will go ahead and complete the piece. As they are completed, I will send you a final picture in different positions. If you are satisfied with the final product then I will move forward through your order. When your order is finished, you may either pick up or have your order shipped after the final payment is made.

How do I pay for the flowers?

I accept payments through PayPal, Cash, Cashier's Check or Money Order. Your deposit is determined by how large your order is. The **non-refundable** deposit is required up front and then the remaining balance split between 3 – 4 months. If there is still an outstanding balance due at time of pick up, you will not receive the flowers until it is paid. There are **NO EXCEPTIONS!** Please request to see my Terms and Conditions to learn more about my refund and cancellation policy.

Help! I need an arrangement last minute, how fast can you complete it?

I can complete a last minute order in about 1 week or less depending if I have the availability and materials. Please keep in mind that I will not have time to special order any flowers; I will have to use ones already in my stock or buy locally. This may limit the type of designs I can do, but I will inform you of that at the time of order.

Where are you located?

I currently run my business out of my home in Allison, Iowa. At this time I do not have a storefront to visit, but I am always available to contact through Facebook, WeddingWire, The Knot Pro, Instagram or email.

Do you have an Etsy account?

No! At this time I do not.

What if I am unable to pick up the arrangements in person? Can you ship them?

Yes, I can! However there is an additional shipping cost. I no longer deliver arrangements to clients. Customers are 100% responsible for the entire shipping charges.

How do I store my flowers?

It is important to store your silk arrangements out of the direct sunlight whenever possible. Sunlight may fade the silk flowers over time, so placing the flowers in partial shade is ideal. When not in use, place all bouquets in a vase to keep them upright so they do not flatten on the side if lying down. Also cover them with plastic to keep dust off.

What if I am not satisfied with my flower arrangements?

If you are not satisfied with how your flowers look at time of pick up, I can change, add or remove anything free of charge. I do send out a picture of the final product before picking up so please let me know if you are unsatisfied at that time so I can change it. I want your flowers to be perfect so please tell me your honest opinion and don't worry about hurting my feelings!

Do you participate in Styled Shoots?

I would love collaborating with other local artists to showcase our creativity! If I have the materials on hand, I would be happy to create personal pieces such as bouquets or boutonnieres free of charge for local photographers/wedding planners in exchange for exposure and access to the entire photo gallery. Since silk flowers can be reused, I require all the pieces to be returned to me after the shoot, unless you decide to purchase them at full price.
