"BECAUSE EVERY PICTURE HAS A STORY TO TELL"

Photographer & Storyteller

ABOUT

Every wedding is unique in its own way. As a photographer I capture the "in between" moments that you would have otherwise forgotten. Rather than overdone poses, I draw out real emotion and connections to photograph. I want you to look back at your photos and remember exactly how you felt in that moment.

INTIMATE ELOPEMENTS

- Elopements are meant to be intimate and unique. Whether it be a City Hall wedding, a spontaneous adventure, or a backyard celebration, I will be there to capture the memories. Elopement packages are a great way to show off your style and personality as a couple., all while keeping it intimate and special.

CAPTURING THE SPECIAL MOMENTS

When you book your wedding date, you will receive a client questionnaire that gives me all of the details I will need for your wedding day. The important moments are the ones that I want to capture. Some of the common elements of traditional wedding day include::

- Bridal party prep (hair, makeup etc)
- "First Look"
- Bride and groom portraits
- Bridal Party & extended family portraits

A UNIQUE EXPERIENCE

For your big day you have plenty of options to customize your package and get the most out of the experience. You can choose to add on:

- My packages are all inclusive. You receive all available photos with no additional fees.
- Receive your gallery back in less than 2 weeks! The average turnaround is 3-4 months for most photographers.
- Second Shooter to capture different perspectives throughout the day.

Ireland

FREQUENTLY ASKED QUESTIONS

Q. How are the photos delivered?

You will receive an online gallery. From there you can download, send and share your photos with family and friends. You may also opt for a customized flash drive.

Q. How long will it take to receive our photos?

Your wedding gallery will be delivered within 2 weeks (standard wedding photography has a turn around time of 3-4 months!) I work around the clock to get your gallery to your ASAP.

Q. How many photos will we recieve?

The number of photos you will receive varies depending on how many shooters you have and how long the wedding is. You can expect to receive at least 65 photos per hour with one shooter. You can expect at least 100 photos per hour with a second shooter.

Q. Do you offer a second shooter?

Yes! I have a wonderful second shooter available at an additional price. Second shooters are great for those who want lots of coverage at their wedding. For example, you will get two views of the ceremony. It will also cut down on time, as I can have my second shooter take detailed photos while I take bride and groom portraits. If it is in your budget, I always recommend a second shooter because one photographer can only do so much.

Q. What happens if we need more coverage on our wedding day?

No Problem! This happens more than often, and it easily solved. If you need more hours of coverage on your wedding day we simply add on additional per hour fee..

Q. Will we have the rights to our wedding photos?

Of course you will! Along with the contract, you will receive a photo release form and a printing release form. You will be able to use your photos however you would like.

Q. Can you pay your the remaining balance the day of our wedding?

The remaining balance is due one week before the wedding date. This is to avoid confusion or stress the day of, and simply focus on your wedding!
