PHOTOGRAPHY

NATURAL. UNEXPECTED. ARTFULLY EDGY.

Thank you for your interest! My name is Lauren, but I go by Laurie. I fell for photography in my high school dark room and knew it would always be a part of my life. After discovering my passion could translate into a real job, I launched Lauren B. Photography in 2007. I love capturing your moments to preserve for a lifetime. I try to focus on what really matters. Real life is perfect enough.

SARAH & STEVEN

"We just wanted to send a personal 'thank you' for photographing our life over the past year. We are so happy to have had you capture our wedding day - you are so talented! No matter how many times we look at the pictures, we are just amazed at the beauty and quality of every shot. You truly captured 'us' and the laughter we love sharing with each other. Thank you so much and hope to see you again!"

ERICA & RYAN

"Laurie is an absolutely AMAZING wedding photographer. She was the first and last photographer we met with. Her great personality, her style and the artistic detail of her photos sold us immediately. It was nearly impossible to pick our favorite photos afterwards because they were all so good! Lauren's phenomenal work allows my husband and me to enjoy looking back on that day as often as we like."

SARAH & ROBBIE

"Laurie is fabulous. Time and again I was impressed with her responsiveness and professionalism. And then she took our photos. INCREDIBLE. She has a keen perception of light and depth, and truly captured our day in stunning imagery. She created a personalized wedding album a few months later and I am SO glad I invested in it. It's perfect."
