

# “The wedding band for people who hate wedding bands”

## Wedding Philosophy

We at Three Sheets to the Wind offer a refreshing alternative to traditional stuffy wedding bands with our preppy, tongue-in-cheek presentation--truly a band for the discerning wedding client who “gets it.”

Amazing versions of the greatest hits of the ‘70s and ‘80s keep the dance floor packed while the stylishly attired musicians bring a certain *je ne sais quoi* to your wedding, and to yacht clubs everywhere.

Because we too have seen parties ruined by bands taking long breaks and playing short sets, we insist on playing two long seventy-five minute sets with only one break to coincide with cake cutting and other wedding traditions.

Although we are *America’s #1 Tribute to Yacht Rock*, we will happily learn a first dance or other song for your wedding--no matter the genre--at no additional cost.

Our band leader, Topper Dandy, is always available to our clients by phone or email. He’ll be happy to work with you to help create and execute a plan for what we like to call “The Greatest Night of Your Life.”™

## Don’t Take Our Word For It

*“I had a wonderful experience working with Topper in the lead-up to the wedding event itself. He’s extremely responsive, accommodating and informative. On the wedding day, Topper was an outstanding MC too. The music itself was absolutely fantastic--the genres of music they play appeal to everyone--your parents, your friends, the 30 year old frat stars, your 21 year old hipster cousin from LA, even your great aunt Marge. Their execution is fun, flawless and--not to be overlooked--their audio guy is exceptional too. Your guests will have an amazing time, and everyone who interacts with them (your coordinator, your mother-in-law, etc.) will have a positive experience.” 100% emphatic recommendation.”*

## Better Parties Through Technology

### Zero volume complaints:

All band members use in-ear monitors--an investment which eliminates five on-stage speakers. Guitar, bass, and keyboards are all run direct into the board, eliminating even more stage volume. The result is crisp, well-controlled audio on a clean stage.

### No sound board in the middle of the room:

Our yachting-attired sound engineer mixes the show remotely from an iPad. We keep the sound board hidden by the stage, and out of the way of your guests.

### One band, one bus:

Band, crew, and gear travel in the 24' long shuttle bus, known to the world as "The Steely Van."

### Designer decor:

Unlike bands who use incandescent fixtures, our all-new-for-2015, nautically themed, LED lighting setup conserves energy, and provides an exciting, yet tasteful compliment to the performance.
