

## INVESTMENT FOR YOU. INVESTMENT FOR US.

We believe if you're going to do something, do it right. We've done our best to make quality capture possible for every couple. For us that starts with backup cameras at every session and continues with lifetime double backups of every shoot. You've invested in each other, and so have we.

*Common packages starting at \$1200.*

### ~COMMON PACKAGES~

#### PARTIAL

Working with a tight budget while still wanting professional capture can be rough (we were in school once too!). This is the package for couples that value high quality capture, but are really having to keep a tight budget. Better to get some of the day captured beautifully, then to want to forever hide a mountain of photos under the bed.

Engagement and Formals photo, with photo + film for partial Wedding day

#### SIGNATURE

The fullest of what we mean by professional authentic, fully custom tailored to you. We start with consultation hours to meticulously review your plans and preferences, customizing everything from shoot to edit. We location scout and pre-walking every moment of your day. Signature means options that aren't on our common customizations page. Pull out all the stops, this is truly the best capture: any tool, any hour, whatever it takes to get the shot. We end with a hand crafted archival grade print book, delivered in our natural oak box with signatures of the artists etched on the inside of the cover. When budget is no longer the primary constraint, this art can truly thrive.

#### STANDARD

Our most common package with all the essentials. Ideal for couples that want full photo and film coverage while still staying within a reasonable budget. This gives you the opportunity to really get to know your photographer and videographer before the big day, making it less awkward and more real so that on your wedding day you'll be able to truly be yourself in front of the camera. Great for couples that want their personalities to shine through in smooth, authentic capture of all their wedding work.

Engagement and Formals photo, with photo + film for Standard Wedding day.

#### FILM ONLY

Formals (or first look/bridal) coverage and Standard Wedding day film.

#### PREMIUM

The package we'd build for ourselves and buy for our children. This package has all the benefits of the Standard package, but allows for more shooting time and more wedding photos end of the day. Ideal for couples that really value having all the events of the day captured. Comes with assistants on every shoot to do everything from getting that catch light in the eyes to grabbing second angles and helping with lights. From Engagements to Formals and the fullest of Wedding Days, we're there to capture it all.

Engagement and Formals photo with photo + film for Premium Wedding day and an assistant on all shoots.

#### PHOTO ONLY

Engagement, Formals, and Standard Wedding day photography.
