## **INDOOR FIREWORKS**

We love indoor fireworks! They truly add an epic element, and are customizable as well (meaning we time them to key moments and can also raise and lower their intensity/height.)

*A set of two starts at \$750*

## INTELLIGENT LIGHTING

For illustration, we call them intelligent lighting because they can rotate 360 degrees, tilt back and forth, up and down, and are *completely customizable*.

We light up the whole room (uplighting), *plus* the intelligent lighting!

***Here are 5 ways we like to utilize the intelligent lighting which really makes your party pop:***

- Picture your grand entrance: such as a simple and elegant spotlight, vibrant club-like energy, or a mixture of both!
- Your choice of monogram(s). This includes your choice of colors.
- Let's make your formal dances pop! We can focus on really highlighting your dress as you dance, for example! The lights aren't blinding, they simply enhance the experience.
- Imagine a dinner under the stars: let us really set the romantic mood with warmth; plus hundreds of little lights on the ceiling!
- It's party time! Be immersed in the ultimate party atmosphere with no harsh lights on the dance floor. Lights can be any combination of colors or settings (slow, fast, fade in/out, etc). It'll definitely bring up the energy, or add a whimsical quality to a slow dance!

*A set of two starts at \$1,500*
