

Hello Bride and Groom!

Thanks for for getting in touch with me for your wedding photography needs. Below is some information on pricing and the services I provide.

one package, one price \$2,000

full wedding (up to three days)/pre-wedding coverage: one photographer

I want to cover the COMPLETE story of your wedding. Not bits and pieces of it. So, on the wedding day, I start coverage at the time you start to get ready. And I keep shooting until the event ends. Usually, this happens within a span of 10 hours! My style is photojournalistic. This means I prefer to capture the event as it happens, rather than to photograph posed or scripted shots.

digital files

Approximately 500 edited and color corrected JPEG files will be uploaded to a password protected gallery, from which you can download the files straight to your computer. These are suitable for web and print. The files will take me approximately four-five weeks to edit and upload from the day of your wedding. Please be patient with me through this process.

Available Extras

wedding album beautifulness \$ 1,250
onwards

A photo isn't a photo until it is printed. So I want to make ALL my wedding clients an album. 50 pages of awesomeness. 10*10 with Luxury leather covers as an upgrade option.

second shooter \$ 500 (per day)

Some people like to have a few extra people with cameras around on their wedding day. And that means you'll have another set of eyes to help. Not bad, right?
