

# 2021 Wedding Pricelist

Congratulations!

We wish you the most memorable  
and magical day ever.

## Traditional Portrait

Portraits in sizes 8x12 to 16x24 are bonded to artboard. Sizes larger than 16x24 and larger are bonded on masonite. All have the protective luster spray.

## Canvas Portrait

Identical to the wall portrait the canvas portrait is first bonded to canvas, then to artboard or masonite. The beauty of the canvas finish is that it appears to be more like a masters painting. The canvas portrait also has protective luster spray.

## The Metal Portrait

This is for the client that wants a contemporary finish to their portrait. It is printed on an aluminum sheet and comes with a float mount to attach to the wall.

## The Gallery Wrap

The Gallery Wrap portrait is adhered to artist canvas and is stretched over stretcher framing. The back is beautifully finished with a black covering and hanging wire attached for hanging on the wall. This finish lends itself to a more contemporary look and does not require a frame.

All prints will be signed as art pieces.
