The Tangible Dreamboat offers a number of different wedding packages:

A basic reception package to include a customizable sized band and instrumentation for a minimum of three hours. This includes basic MC services, (1) set-break with pre-programmed dance music, all sound-reinforcement equipment (barring major production needs), and soundman.

1 hour of cocktail reception music (jazz or otherwise), and above reception package.

Ceremony music (as requested), cocktail hour, and reception.

Ceremony music, cocktail hour, dinner hour (solo gypsy-jazz guitar looped with violin i.e.), and above reception package.

*Pricing for each package will vary based on travel needs, requested instrumentation (the addition of an entire horn section, for instance), necessity for overnight lodging, and extended sound reinforcement needs.

**These are examples of commonly requested programs. We are here to re-create your vision of the big day's entertainment – let's get creative!
