Welcome!

Your wedding will be one of the most important days of your life, and certainly one of the most memorable. When the night comes to an end, and “normal life” resumes, you won’t forget any little detail, because your photographs will have captured all of them.

Choosing the right photographers is one of the most important considerations when planning your wedding. Not only do you need to love their style, but you also need to love the photographers themselves. Remember, you’ll be hanging out with them all day! **We have hundreds of happy clients, and we know you’ll be one of them.** We want your day and your photographs to be perfect -- memories you can share for a lifetime.

“Live Happy Studio made us happy and at ease from day one! They allowed us to incorporate personal items into our engagement photos and encouraged us to relax, have fun, and even tell them stories about us! They act like a true blue friend! On our wedding day, as soon as they popped up they were there with big smiles on their faces which were met with even bigger smiles on our own faces! They work effortlessly in the background to capture those unique shots of a minute detail or funny expression on your family member’s face that you were not even aware of! They love hearing your ideas and incorporating them in creative ways. It was a blast working with Live Happy Studio. We will cherish their photos for the rest of our lives!”

- Hannah + Rowland

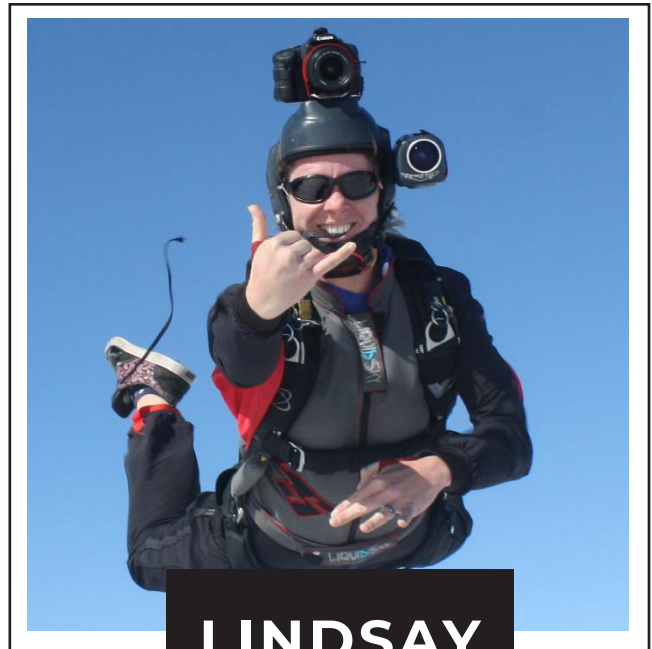

Hello There!

KELLIE

Kellie has been a photographer, videographer, and graphic designer for 15 years, born and raised in Orlando. Her passion for photography started when she was knee-high to a grasshopper (which she still is). She has an eye for the artistic and unusual shots, so you may find her lying on the floor or hiding in the bushes as you say “I do”.

Kellie isn't just a photographer, she's an adventurer, too. In her spare time, she can be found on a mountain bike (or sometimes in a heap on the floor next to one) speeding through hollowed out tree trunks and flying over mini dirt jumps.

LINDSAY

Lindsay has been a photographer and videographer for over 15 years. Born in the UK, she bounced around the world, finally landing in Orlando. Lindsay's photography career started differently than most people's, jumping out of airplanes and taking photos while falling 120mph towards the ground.

After 7,000 skydives, she made a career change. Now her feet stay on the ground, and her camera stays pointed at you. She has an aptitude for organization, so she makes sure everyone is in the right place at the right time, staying right on schedule.

What makes us different?

Few Orlando wedding photographers have been established in the industry as long as our team, and even fewer have kept the same, reliable team members the whole time. We've been working together for years, so our familiarity and ease with our cameras is equal to our familiarity and ease with each other.

Posed smiles show just in your teeth, real smiles show in your eyes. Our images are different, thanks to our candid, relaxed shooting style. Those real moments happen in a second, when your eyes light up, and the scene is filled with palpable emotion. By staying out of the way as much as possible, we capture all those awesome shots, without you even knowing. Ninjas by trade, and we look good in black, too!

Most importantly, we are great photographers at a great price. We have always felt strongly that everyone should be able to afford the perfect wedding images, which is why we offer more affordable pricing for our clients. If we wouldn't pay it for OUR big day, we wouldn't charge you for it on YOURS.

Thanks for checking out what we do, and we cant wait to work with you!

WHAT'S THE PROCESS?

- GET IN TOUCH -

The first step is to get in touch, tell us more about your big day and how we can help make it even more awesome.

- LET'S CHAT -

We love meeting people face to face. A local cafe is always a great place to meet up. You don't have the inconvenience of trekking out to our office, plus we can grab a coffee, too!

- PICK YOUR PACKAGE -

We have a lot of great packages to fit your needs, and each can be adjusted, so just let us know what you're looking for and we'll hook you up!

- CONTRACT -

Once we know exactly what you want, we'll send over a contract for you to sign, and your date is secured with a deposit. Yay!

- ENGAGEMENT SESSION -

If you want an engagement session, this is the time to do it, nice and early, so you have great pictures to send out on save the dates or invitations.

- PHONE CALL BEFORE THE BIG DAY -

Small changes and additional information are inevitable before the big day. We call you a week prior to the wedding to go over all the details so we don't miss a thing!

- WEDDING DAY -

Whoo hoo! Need I say more!?

- TWO WEEK TURN AROUND TIME -

Yup, you read it right. Just two weeks after the big day, you'll have all the images to share.

- PICK YOUR PRODUCTS -

Now it's time to get those images in print. We make sure every couple gets a wedding album, but we also have a huge list of other creative options for you to choose from.

- LET'S STAY BESTIES FOR LIFE -

We had fun at the wedding, and would love to see you again. Just call us when you need another special moment captured: an anniversary shot, pictures of your furry friends, welcoming a new family member. We can't wait to work with you for years to come.

16x20.....	\$300.00
24x36.....	\$450.00

Wedding Tips

Trust your photographer

It's so important to get to know and trust your photographer. That's why we set up meetings and phone calls to make sure you're 100% sure you made the right choice booking with us.

What style of photographer do I want?

There's so many different styles of photography, from classic to artistic, dramatic to documentary/ candid (Google can explain those for you). Find a photographer that best fits your style and personality.

Do I need an engagement session?

There are a number of reasons to get an engagement session. Firstly you get to hang out with, and get to know, your photographer. This can make you feel a lot more comfortable on the big day. The images will also be completely different from your wedding portraits as you'll be in every day clothes. Don't forget that you can also use the images for save the date cards or invitations.

What should my timeline look like?

If you have a planner they will help with your timeline, and if not, don't worry we are here to help too. Consider the time of the ceremony and what time the sun sets that day. Maybe you'll be doing a first look and want photos before hand so you can have a ceremony at sunset. Maybe you want all the photos after, in which case we suggest ending the ceremony around an hour before sunset, to give us plenty of light for all of your portraits.

What is a first look?

Traditionally the groom would first see the bride as she walks down the aisle, and a lot of people want to experience this moment. But not everyone is the same, and not everyone wants to follow tradition anymore. A first look is when you see each other before the ceremony. It's a private moment to see each other all dressed up, have a minute alone, and calm the nerves before you say your vows! It also makes for some beautiful images of an amazing part of your day. Finally, it means you can get a lot of your portraits done before hand so you can get to cocktail hour after the rings go on! Yay drinks!

Do I need a planner/coordinator?

Often people ask this question because of their budget, it all depends on what is most important to you. We find a planner really valuable. They'll keep you calm, solve any issues and make sure everyone has an awesome time. However, to keep prices down you could consider a day of coordinator, they're just as awesome.

Give the stressed family members a job!

Ok, so family members are great but they're asking way too many questions and starting to stress you out. We find the best thing to do is give them a job! That way you get something taken off your list and they get a task to focus on.

Break in your shoes or bring flip flops!

Your wedding day is a pretty long one and by the end of the night its nice to still be able to feel your toes. It's always a good idea to break in your shoes or bring a comfy pair for the dance floor, you too guys!

Will the DJ and uplighting affect my images?

Yes it will! Getting a good DJ and uplighting is more important than most people realize. A DJ will be there to help move the crowd around, make announcements, and make sure the dance floor is full all night long. A good DJ can read the crowd and instinctively know what each group wants to hear, and loves to dance to. Then when you add uplighting it makes for beautiful images.

Don't forget to eat!

Never feel too busy to eat, it's so easy to forget. Trust us when we say you'll have much more fun if you eat, no one likes being hangry. Let yourselves have 20 minutes with no interruptions to talk to each other and eat some of the amazing food you picked out specially.

Make sure you're ready for your exit!

The party is pumping, the drinks are still flowing and its easy for time to run away with you. Make sure you appoint someone to keep an eye on the time at the end of the night and help you, so you know all your things are packed up and your exit transportation (not always a car) is ready to go. That way you can have a fantastic last dance and without worrying about going back into the venue because you forgot your bag, shoes or the all important cell phone.

Frequently Asked Questions

How many people work for your company?

Kellie and Lindsay own and operate Live Happy Studio. We do everything from client meetings, shooting both wedding photography and videography, editing, blogging, wedding product design, and anything else we can! We do all of this to make sure customer service is top notch.

How long have you been wedding photographers?

We have been pointing cameras at people like you for 15 years, and we still love every moment!

What is your wedding photography style?

Our wedding photography style is documentary. It's a candid approach to capturing people in their environment, naturally. We pride ourselves on making people feel comfortable, whether we are directing a big family portrait or hiding behind a tree to capture Aunt Polly's contagious laughter, we'll be there capturing natural candid images.

How many weddings do you shoot a year?

We shoot approximately 70 weddings every year, we just can't get enough of it.

Should I give you a specific list of portraits I want?

That's entirely up to you! A lot of clients have a few fun images they have seen online that they may want to recreate, or maybe some fun new ideas of their own! We also have a bunch of fun things to do if you want to keep it easy and leave it to us! During the family portrait session we have a mental list that we work through to make sure we capture everyone there. If you have a specific list of family shots, or just a couple of unusual ones that we may not think of (like uncle Bob with his full family of Chihuahua's) let us know and we'll add that in there too.

Do you pose us?

We have plenty of suggestions from pretty settings, stunning composition and fun things for you to do! We love natural photography, so we try to suggest things that will make you feel comfortable, instead of telling you to point your toe this way, your arm that way, then spin your head around backwards. We want you to be comfortable and it's part of our job to make that happen. The key to this is to not overthink it, just enjoy the day!

Will I have Lindsay and Kellie shooting my wedding?

Yes! We always shoot every wedding together. One of the best things about Live Happy Studio is you always get TWO main shooters, instead of a head shooter and an assistant.

Do you shoot more than one wedding a day?

No. Your wedding day is important to us, you are our only focus!

How many images do I get and how do we receive them? This really depends on the amount of hours we are there and the amount of things you have going on! Generally our couples receive 800-1200 images! That's a lot of memories! We provide them in high resolution online and on a USB with a copyright release form.

How long is your turn around time for wedding images?

We know you can't wait to share your wedding photographs, and neither can we! That's why we have a 2 week turn-around time. No need to wait months, your images will be ready for you by the time you're back from your honeymoon!

What does the editing process involve?

We go through all of your wedding images and remove any where your eyes are closed, people are looking the wrong direction or granny has her hat on backwards. Then everything is organized for you into easy to see sections. Finally cropping, exposure and color is corrected if needed. We duplicate some of the ones we love to B&W too!

Do I get a copyright release form? Yes! We love taking wedding photos and we feel those images are meant to be shared! We include a copyright release form with every set of images. Sharing is caring.

Do I get high resolution images?

Yes! They are really really big.... if you want to make a billboard or wallpaper with your faces on, then you're all set. :-)

Do the images you give me have watermarks?

No, of course not, they're your images.

Do you have insurance?

Yes and we are happy to provide a copy to your venue if they need it.

What type of camera do you use? Do you a back up?

We use mirrorless cameras. More specifically we use Canon R5's (they're pretty fancy!). Yes, and we also have back-ups for our back-ups :)

How long should I wait to book my date?

Don't wait! Wedding dates book up quickly! Most people book their wedding photography around 9-12 months in advance, sometimes more in the popular months.

What payment methods do you accept and what is the deposit?

We accept all major forms of payments, whatever is easiest for you! Generally we ask for a 50% deposit when you reserve your date with a contract, and then the remaining balance is due 10 days before the wedding.

More questions? We have the answers....just ask!
