KEY INFORMATION

I travel on-site for weddings unless previously discussed. Booking via StyleSeat provides the option to pay in advance OR auto-checkout after service is completed. Depending on the demand for your date, 50% deposit may be collected (this goes toward your final cost) via invoice, check, or most popular payment platforms.

Wedding services can either be paid per individual, or in total. All bridal clients are required to book via StyleSeat. Individual wedding party / family members are highly recommended to book and check out via StyleSeat, but other payment forms are accepted if discussed in advance.

All payments must be received no later than the day-of, in full, immediately after makeup services are completed.
