WEDDINGS & S

IN PURSUIT OF MOMENTS UNREHEARSED

PRESERVING

YOUR
Love story

Moments Unrehearsed...once-in-a-lifetime moments, spontaneous, natural, timeless images captured in a photograph; preserved forever. These are the moments I pursue as your Wedding Photographer. I harness the ninja every chance I get, discreetly capturing undirected, informal moments; telling your story; all the while...subjects blissfully unaware of the presence of the camera.

And to do this better than anyone else, I get to know you as a couple first. We meet, I feel your energy and connection, I see the love and devotion in your eyes, your smiles, your every gestures and touch. I understand your common interests and what makes you want to spend the rest of your lives together. With a double passion as a professional artist who happens to be a photographer, I will enjoy every moment creating artistic images for you, knowing how precious every second in life truly is, especially on your Wedding Day. As an added benefit, you will find that my experience and professional training in both fields of art and photography offers you diverse media choices to memorialize any special moment whether it be through a single photographic print, flush-mount wedding book, or hand drawn black and white charcoal rendering.
