

**Congratulations on your upcoming wedding!**

I would be honored to officiate. I've officiated full-time since 2008 and have learned much about what makes for a great ceremony and wedding day.

It's simple. **Keep it about YOU.**

My job is to understand what's essential for you and what mood or tone you want to set for your ceremony and help you bring that to life.

I'll get to know you. Are you quirky and funny, serious and studious, fancy and elegant? Your ceremony should be a reflection of your personality! A Halloween theme in February? Why not?

## The Ceremony

The ceremony is uniquely yours. I give you a personalized set of questions about your love story, what makes you unique, and what you've learned from the other. Once I get the questionnaire back, I will begin your first draft.

It's a ceremony we do together and one in which you have the final say. No surprises! Everything I say is pre-approved by you.

I arrive one hour early for sound checks and to connect with your coordinator/DJ/Photo to
