HI, I'M MEGAN!

I'm here to make you feel comfortable and confident while capturing your unique love story.

- My editing style has an “autumnal” vibe, with warm undertones and rich colors.
- I focus on capturing organic movement, natural emotions, and candid moments. That means no awkward posing!
- You can usually find me hiking with my husband and son, reading, or watching the Great British Bake Off.

If you're anything like me, the photos that you want to look at again and again are the ones that make you remember how much fun you had and how loved you were on your special day.

I'm the perfect photographer for you if...

You identify as an adventurous introvert

Do you love exploring new places and going on adventures, but also identify as an introvert? Are you nervous about being in front of a camera? I keep my couples moving and having fun so you don't have to worry about posing or feeling awkward.

Fall is your favorite season & your aesthetic

The crunch of fallen leaves underfoot. The crisp smell of colder weather. Pumpkin bread, pumpkin pie, PSLs. My editing style is inspired by autumn vibes, with warm tones and lots of rich colors. If that resonates with you, let's work together!

You love to spend time & outside

I believe that you show up best when you're doing something that makes you happy. Whether your bliss is dancing on a rooftop, hiking a mountain, or dancing the night away, let's make sure it is part of your big day.

GET TO KNOW ME

I'm all about enjoying the outdoors and protecting nature... when I'm not photographing and creating art, I work in digital strategies for a large environmental nonprofit organization. My work centers around wildlife conservation, land preservation, and increasing access to the outdoors for everyone.

I am a new mom... The arrival of my son last year reinforced why I love taking photos of couples' special days - so they have photos to remember that day forever and to share those memories with their own loved ones.

I've moved around a lot ... I'm originally from Cincinnati, Ohio, which will always hold a special place in my heart. But the more places I've moved the more I've realized that it's possible to feel at home in multiple places! So far I have also lived in New Jersey, Maine, Alabama, and Ireland.

If I went to Hogwarts, I would be in Hufflepuff... I might be a little *too* obsessed with Harry Potter (is that possible? asking for a friend). The good news is that being a Hufflepuff means that I am a patient, dedicated, loyal, and kind photographer.

WHAT TO EXPECT WHEN YOU WORK WITH ME

1

LOW-STRESS PLANNING

If you're eloping, I help you pick out a location, set up a schedule, figure out permits, and find other vendors for your adventure elopement. I also offer planning guidance for larger weddings.

CUSTOMIZABLE EXPERIENCE

Everyone is different and every relationship is different, so all of my services are completely customizable to suit your needs.

EFFORTLESS PHOTOS

My goal is to make you forget that there is a camera pointed right at you. I'm not a fan of posing for the sake of posing. I think the best photos are moments of action: a laugh, a kiss, a hug, a glance.

FAQs

What is an adventure elopement?

An “adventure elopement” is an intimate, unique way to celebrate a couple and their love story. Everything is completely customizable, from the location to the ceremony to the number of guests. For some, this means climbing Mt. Rainier at sunrise. For others, it means having their friends and family gather in their backyard.

Do we have to travel somewhere “exciting” to elope?

An adventure elopement could happen far away (like in a different country or a national park) or it could be in your own backyard. I act as your location scout by offering you a personalized location guide based on what you are looking for and who y’all are as a couple!

Does an elopement have to be just the two of us?

The beauty of an elopement is that it is completely unique and customizable. Some people want to celebrate their day with just their special person, an officiant, and a photographer (me!) to document everything. Others plan to have their elopement witnessed by their parents, siblings, or close friends.

What does a “full day” elopement look like?

Picture this: you wake up the morning of your wedding with zero stress. You have a cup of coffee with your person. You get dressed in something that makes you feel great. Maybe you go on an adventurous hike with your dog and say your vows under the trees. Maybe you go to the beach you always visit together and say your vows to each other with the ocean and sea gulls as witnesses. After, you share a meal at your favorite diner. Or play a board game together. Or invite your close friends and family over for a backyard cookout. Or snuggle up and watch a movie together. And the whole day is documented with beautiful photographs that will always remind you of your perfect wedding day.

What if we are planning a bigger wedding?

I take on a limited number of big weddings (over 50 guests) a year. I focus on working with couples who feel like my best friends, regardless of how they plan on celebrating their love story.

How do we reserve our date?

Reach out via my website to see if I have your date available. If I do, we will schedule a call to talk about your vision and ideas for your big day and to make sure we’d work well together. After that, I require a \$500 retainer to reserve your date.

YOU GOT THIS!

Planning your wedding day is super exciting, but I know that it can also be stressful and overwhelming. There are so many decisions to make, sometimes decisions that need to be made while managing expectations from friends and relatives. Just know that you are doing an amazing job. My top pieces of advice for couples are:

- Remember that you are planning YOUR day. That means you get to invite who you want to invite, wear what you want to wear, eat what you want to eat (etc). Don't let other's expectations force you into planning someone else's dream wedding day.
- The small things aren't as big of a deal as they seem at the time. Seriously, nobody will remember what font you used for your wedding invitations, what color the napkins were, or if your hair didn't look exactly as planned.
- When you're feeling overwhelmed, don't forget to breathe. Pause. And remember that everything will work out the way that it needs to.
- On the day, stay in the moment. Laugh at the little things that don't go according to plan (it will happen!). Cherish the moments you get alone with your person. And, of course, have fun!

*Love,
Megan*
