FAQs

Securing the Date

How do I secure my wedding date?

In order to secure your day/time, you will need to submit the signed contract along with a 50% non-refundable deposit in the form of cash, a major credit card, or Venmo.

Do I need exact numbers for the bridal party and family?

Yes, in order to reserve your time, I will need to know the exact number of those bridal party and family members who intend to get their hair done. However, if you need to add to that initial number, I am happy to accommodate as time permits but without any guarantees.

Creating the Perfect Style

How do I pick out a good style for my hair?

Start by considering what the dress looks like: its cut, its front, its back, etc. After all, classic or elegant dresses demand a matching style. Then decide whether you'd like to wear your hair up or down. Important factors include: length, texture, thickness, and weather (both wind and humidity, but more so wind).

I really love the fullness and length of this style. Is this achievable?

This is a very frequent question, but it's important to realize that a majority of the models in pictures are wearing wigs or extensions. Plus, some of the hair isn't even human – it's synthetic! In order to achieve the desired fullness and length, we can use a combination of clip-in extensions (I recommend "Euronext" at Sally Beauty Supply) and padding.

How can I make my hairstyle stand out more?

In order for a hairstyle to stand out more, you need to add dimension to the hair, especially closer to the roots.

What hair accessories am I able to wear?

We could add flowers, hair garland, tiaras, combs, and essentially anything that does not sit heavy in the hair.

Do you do makeup?

Unfortunately, I do not. However, I can happily recommend some makeup artists that I frequently work with.

Trial Runs and Hair Prep

How do I describe the style I'm looking for?

It's best to begin compiling inspirational pictures and emailing these over to me as soon as possible. Nothing beats an actual trial run, however.

Should I get a trial run? And, if so, when?

Yes, you should! This is the best way to get an idea of how the hair will actually look and will make you feel more confident and comfortable before the big day. Keep in mind: the trial run should be as close to the wedding date as possible.

Do I have to get a trial run if I don't have the time?

No, this is not something that I require, and I will do my best to achieve your look the day of. Again, emailing me lots of pictures and giving me a detailed description of your hair will help tremendously to achieve your desired goal.

Can I cut or color my hair right before the wedding?

You should not cut and/or color your hair any fewer than 7-10 days before the wedding, as doing so would make your ends too blunt to properly work with.

The Day Of

How should everyone arrive on the day of the wedding?

Everyone needs to have clean, dry hair that has been shampooed twice and lightly conditioned on the ends. You should blow-dry but not flatiron.

Can everyone pay for themselves, and what forms of payment are accepted?

No, please submit only one form of payment before the wedding day. I accept cash, all major credit cards, and Venmo.

Will you be able to do touch-ups?

Yes, I would be more than happy to stick around for any and all needed touch-ups throughout the course of the evening. For convenience's sake, I charge an hourly touch-up fee of \$100.00/hr (rather than charging for each application individually).
