

ABOUT HANNAH

Hi there, I'm Hannah!! Thank you so much for stopping by to view my work! I am really passionate about connecting with my couples and would love to get to know you more! I love a good love story so share away! There is nothing sweeter than capturing true, genuine emotion in my couples...whether its belly laughs or those quiet intimate moments that you want to hold on to forever. Giving others the ability to relive their story all over again is a gift I am honored and blessed to share. And I hope I can be a part of your beautiful story!

what to expect

This is one of the most exciting and happiest time in your life...the planning process should be too! With me, you're not just getting someone who shows up on your wedding day and clicks away. I want to get to know you and your fiance. I want to invest in your love story, in your wedding day. One of my brides once told me that she "booked a photographer and left with a lifelong friend." That couldn't describe my goal as your photographer any better! Being comfortable, having fun and creating sweet memories is what creates timeless, genuine photos. I will work with you to create a custom photography timeline to help your day run seamlessly. You shouldn't have to worry one minute during your day!

My wedding day collections start at \$3,250 and they all include at least 8 hours of coverage, detailed planning timeline an online professional gallery and a custom usb box of all of your gorgeous edited photos. Scroll down to view my collections in more detail.
