

Pick your flowers!

But read this first :

After you pick out the flowers, you will schedule a discovery call!! And we cannot wait to meet you!!

Please note : once you fill this out numbers may change, but once you sign the contract you cannot go below the dollar amount it's signed at, but things will change and if you take something off the balance would just be spread throughout the whole wedding. I usually suggest starting on the lower end for tables and wearable flowers.
