What are the benefits of using a Travel Agent?

Travel agents offer you a variety of options & quotes from dozens of different travel vendors, which gives you, the consumer, the upper hand when making your final travel decision. Most travel agents are experts in certain areas, which helps distinguish what type of travel you are looking for. Working with a travel agent means having a customer advocate in your back pocket. If something goes wrong during or before a vacation, travel agents are there. Customer service is a travel agents main mission. Creating the best value & saving a traveler money is always the goal. With knowledge of the ins & outs of the industry, travel agents are always updating their knowledgebase
