## INVESTMENT

Choosing the right wedding photographer can be scary.

After all you only have one wedding ( hopefully ;) )

I want to get to know you and your other half.

From the start of booking to the end, I will be there! let's get to know each other over coffee, I want to make sure I am the right fit for you, and that we click!

## WHY INVEST IN PHOTOGRAPHY?

You will never live today again. Memories are just memories. Capturing those memories in photos is like looking back in time, and remembering how that moment felt. I capture the moment now so you can reminisce on the memories later.
