Wedding
Guide

Welcome

Hi there, my name is Tom and I am the owner of TH Photography. My passion for photography started when I was in high school. After seeing my art teacher's wedding work I was inspired by his style and quality of images he created.

I learned early on that wedding photography is a combination of documentation along with an element of artistic creation. My style of photography is a blending of those two elements into a visual storytelling of your wedding day.

My perception of imagery focuses on the overall to the minute details along with the spur of the moment candid. My storytelling process of photography is always at play with the concept of a finished album in mind. I draw from my years of experience to make immediate decisions at your wedding in regards to the most artistic ways to capture your story. Natural light, Off camera flash, HDR techniques and focal length of lens plus post production with photoshop are some of my artistic tools that I will utilize as your wedding photographer.

I thank you for taking the time for considering me for your wedding and to find out more about my style of photography.

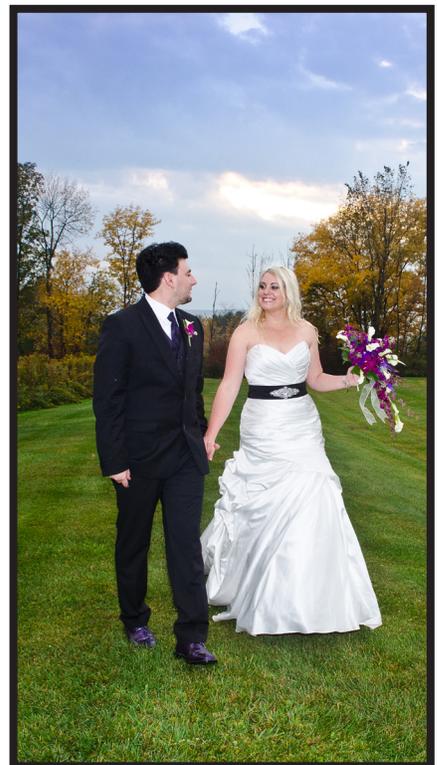

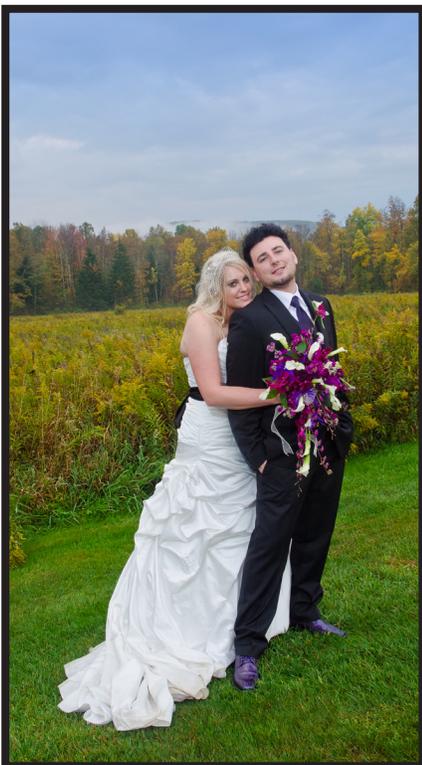

If you would like to get in contact with me about your wedding photography, you can call the studio at 315-834-9022, I would be glad to discuss more about your special day.

Tom Hannig

What to Expect

First and foremost I like to get to know my wedding couples. Getting to know each other is very important so that we each feel comfortable on your wedding day. My style will more reflect your personalities and how you see your final wedding photography. Without getting to meet we are unable to provide a service tailored to your needs. I strongly believe that getting together either personally or through skpe (for out of state couples) is essential.

I want your photography experience with TH Photography to be: worry free, fun, memorable - in a good way and non intrusive. When the day is finished and the last photo is taken, your excitement to see your wedding photos will have a lot to do on how your photo experience has gone throughout the day. Its a feeling of accomplishment that your photographer did everything right!

Testimonials

Tom was the photographer for first my brother's wedding, then my own. From start to finish, he was great to work with, especially for such an important event. The photos turned out lovely, with lots of different options of poses and candid shots. And our final album, the custom storybook design, was beautiful as well. I would (and have) recommend Tom again!

In 2009 my husband and I were married at Willard Chapel. Tom and his crew helped us preserve such a special day. They captured the essence of love, support and family both at Willard Chapel and The Lodge at Welch Allyn. I have been a wheelchair user for the better part of my life and used a standing frame when my Dad "walked" me down the aisle. The way Tom shot the pictures, you couldn't even tell I was using the device. It looked as though I was floating down the aisle arm and arm with my dad and then my new Husband. We had not thought ahead of how we would get the standing device from the church to the reception hall and Tom so graciously offered up his vehicle to transport it for me. Our custom, one of kind photo album turned out absolutely gorgeous from our wedding day. I love when I get to bring it out of its box and show it off with pride as to how beautiful the pictures turned out.

We were so impressed with the images that Tom created on our wedding day. It was a Friday night wedding so we were tight on time. Tom did a mixture of funs shots, formals and plus a lot of beautiful images of my husband and myself.

Wedding Day Photography

6 Hours of Coverage ---- \$1,500.00
