# THE WEDDING EXPERIENCE

---

We are Chelsea and Adam of Dual Edge Photography - a wildly passionate, free-spirited, and adventurous husband and wife team. We are devoted to creating an unparalleled experience and recognized for our fine art wedding and portrait photography. We opened our business taking head shots for a local theater company and we've been shooting, fist pumping, and making incredible friendships with some of the best couples ever since. # TESTIMONIALS

“Its been 4 months since my wedding and I still cant get over the amazing work that Chelsea & Adam did. Thank you so much for taking such beautiful photographs on our wedding day. You captured the day perfectly and it was a pleasure to have you both as part of it all. We’re so pleased with the results and the lasting memories we now have for lifetime. Do yourself a favor and call Dual Edge Photography you wont regret it!!! Best Wishes Stephanie and Jonathan”

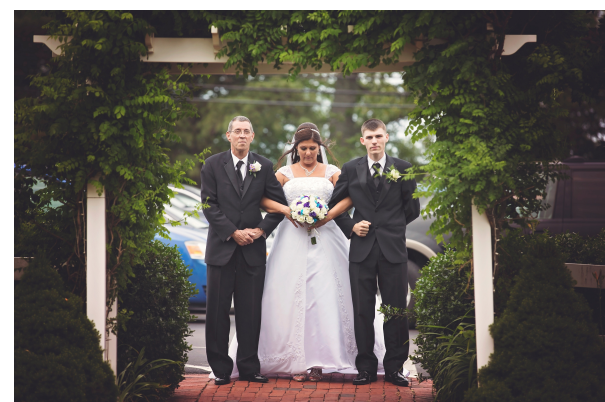

“Working with Chelsea and Adam was the best wedding decision we made. They are the easiest people to work with, and their creativity is mind blowing. They are so organized, and respond to any questions quickly and throughly... and they are just cool people as well! Highly recommend them for your wedding and engagement photos!” - Sarah and Paul

“Let Dual Edge Photography be the last photographer you look into. You won't be disappointed! We used them for engagement photos and wedding! The value is incredible and from the moment we met them, Chelsea and her husband Adam made us feel like part of their family. The BEST part about Chelsea and Adam is that their hours are unlimited for the day and they could split up to accommodate the bride and groom. Chelsea came to my parents house (the brides house) to take fabulous pictures of all the girls getting hair and makeup done. She even included our dog which my family loved! While Chelsea was with us, Adam went to my husbands house to take pictures of the guys relaxing and getting ready before church. The pictures at church were spectacular and captured the beauty of the ceremony of me and my husband as well as the architecture and stained glass windows. Once we got to our reception, Chelsea and Adam took every single photo we asked them to for formal photos before we went off and took our own pictures. They are up for ANYTHING you want and love trying new things to capture the beauty of the day. We were lucky to have the beach, golf course, and bridges at our venue and Chelsea and Adam's photographs of us looked like they came in a magazine. Chelsea and Adam were the last people to leave with us that night, meaning they had spent 12 hours with us! They captured every moment and progression of the day. We are in love with our wedding and engagement photos and would recommend them to anyone looking for Vogue quality photos on a budget. Our positive words will never be enough to describe the experience we had from booking with Dual Edge Photography. Once you meet them, you will know that they are the best ones to capture your special day.” - Jen and Nick
