Dear client,

Thank you for taking the time to look into my company! Through these next couple paragraphs, I am going to tell you about myself and our prices. I look forward to you getting to know me and someday I can get to know you a little better!

I love photography. Ever since I was little, I have enjoyed every aspect about the field. The moment I realized I would want to do something with photography was in high school. I was in yearbook and I loved taking pictures of events and people to capture those moments. I have since then turned my skills into something that I am proud of. I will forever be trying to improve myself.

Any kind of event deserves to be capture with all its emotions. I love capturing raw emotions in a moment. Therefore, I have started my own photography business and am jumping into the world of wedding photography. I look forward to the opportunities that I will have in the future. And hopefully one of those opportunities is working with you!

I have been taking portrait pictures for over the past 5 years. My favorite experience was working out in a camp in California over the summer and taking pictures. The action of the games and the emotions throughout the week made it all worth it. Those are the most precious pictures I have taken so far. And really helped me grow my ability to change camera setting quickly.

Anything else about me, we can talk about in the first appointment we have. If you have any questions for me do not hesitate to ask!

Sincerely,

Erika Infantas
