

Weddings are all about time. Every minute is important on wedding day because it's simply YOUR DAY! Designing an itinerary can be very daunting since it involves so many different vendors. I'll make this short and sweet because we can talk more face to face at the studio or Facetime. I usually arrive 2 hours before the ceremony time to capture all of the getting dressed details like your jewelry, shoes, invitations, and tons of awesome candid. If you choose to create a "1st Look" before your ceremony then you must add an additional hour. That'll be 3 hours before the ceremony time for a stress-free experience.

All of your vendors need to know this time frame, so it's best to decide early within the planning period whether or not a "1st Look" is something you would love to have.
