Welcome I'm Emily.

Being a wedding photographer is truly the best job in the world! And believe it or not, I've wanted to be a wedding photographer for most of my life! I've always had a passion for taking photographs. I learned photography on a film camera over 12 years ago and have been practicing my craft ever since.

I love to incorporate human connection, deep emotion, and movement into my photographs.

I want your wedding photography experience to be stress-free, simple, and fun because you deserve an unforgettable experience! From our first interaction to image delivery, my priority is YOU first and foremost. I feel so blessed to work with so many amazing couples, capturing the most important day of their lives and I truly hope we get to work together!

xoxo,
Em

Kind Words

HOLY COW! Emily is absolutely AMAZING! I could not recommend a photographer more! She made my day and honestly played more roles than she was paid to! She is fantastic with directing how to make the photos their best and my wedding party adored her! There are seriously no words to describe how amazing our photos are and how much I recommend her to anyone looking for wedding/family/boudoir photography!

Emily was so incredible!! There are not enough words to thank her for everything she did for us on our wedding day and leading up to it! I can honestly say without her our day would not have been the same!! She made sure to capture every moment!! My husband and I are so incredibly grateful for Emily and her team!! She is extremely organized and made sure everything was on time throughout the day and even went out of her way to make sure I was eating and drinking water throughout the night!! I cannot express my thank you enough!!

-Emily M.

Emily exceeded every expectation I had. She's so talented and professional at her work. She made sure I was heard and my wedding day was everything I ever dreamed of. I was absolutely blown away when I received our wedding photos, they are more than I could have ever imagined!

Emily is a true gift. My wedding photos came out wonderful. She did a great job at capturing every moment of our night. What I appreciated the most was that she sat down with me prior to the wedding and created a timeline for our day, a much better one than my actual wedding planner created! She communicated well with the other vendors at my wedding, was not shy or afraid to take a lead- since my planner was definitely lacking. Emily is personal and truly cares about her work! I received so many beautiful pictures that we will treasure for a lifetime
