

Wedding Packages

It's important for me to communicate that I understand that this is one of the most special days to have photographs of. I will be there to catch those fleeting moments that often go unseen in the excitement of your big day. Leading up to your big day, I encourage you to share photo moodboards or Pinterest boards that you may be drawn to if you have a specific look in mind.

On the next page, you will see 3 pricing options. You have the ability to modify packages to meet your expectations. To secure your date, a retainer fee of 50% of your wedding package's price is due upon signing your photo contract.

A retainer of 50% of your wedding package price plus a signed contract are required to reserve your wedding date and is non-refundable. However, the above stated retainer will be applied to the total cost of your wedding package. The non-refundable retainer is a fee that retains the photographer's services for your scheduled session date that the photographer has turned down other work for. The wedding package total is due **14 DAYS** before wedding date. Payments can be split up leading up to the wedding in a payment plan that is agreed upon between the client and Zach Gideon Photography.
