

I offer 4 different options for wedding photography packages.

1. The elopement- This is my least expensive package. I like to think of it as a "wedding mini session". With this package I will meet with you at the outdoor location of your choice (park, boardwalk, beach, etc.) and we will shoot several poses for approximately forty five minutes. I will make your proofs from our shoot available by the next day and you can choose your favorite 10 images from our shoot to be delivered back to you as retouched, high resolution, digital downloads.

2. The Ceremony- This is the next package up from the elopement. I will meet you at your wedding event space, we will shoot on the grounds before your ceremony, during the ceremony, and on the grounds after the ceremony. I will make your proofs from our shoot available by the next day and you can choose your favorite 50 images from our shoot to be delivered back to you as retouched, high resolution, digital downloads.

3. Ceremony and Reception- This is the next package up from the Ceremony. I will meet you at your wedding event space, we will shoot on the grounds before your ceremony, during the ceremony, and on the grounds after the ceremony. I will then follow you to your reception space, I will document table settings, decorations, take detailed shots of the cake etc, take both candid and posed photos as well as photograph "key times" during your reception. I will make your proofs from our shoot available by the next day and you can choose your favorite 150 images from our shoot to be delivered back to you as retouched, high resolution, digital downloads.

4. Everything- This is my most expensive & complete package. It includes all elements of the "Ceremony" and "Ceremony & Reception" packages listed above plus time spent documenting the "getting ready process" where I document the bride & groom getting ready before the wedding. I would then continue on with you to the event space we will shoot on the grounds before your ceremony, during the ceremony, and on the grounds after the ceremony. I will then follow you to your reception space, I will document table settings, decorations, take detailed shots of the cake etc, take both candid and posed photos as well as photograph "key times" during your reception. I will make your proofs from our shoot available by the next day and you can choose your favorite 250 images from our shoot to be delivered back to you as retouched, high resolution, digital downloads.

I hope this helps explain my package options. Please do not hesitate to ask me more questions if you need, I will be happy to answer them for you.
