OUR PROCESS

Chemistry & Capabilities

Let's meet. Describe your vision and tell us what you're most excited about. We'll get a sense of your planning and design needs so we can recommend a service that works best for you.

Creative Development

This is where we thrive. We'll work closely with you to coordinate the logistics, event flow, music, catering, ambience and personalizations to make your event one-of-a-kind.

Event Day

We will be working in tandem with vendors and family and wrangling behind-the-scenes to ensure that your event runs smoothly. By this point your sole focus should be celebrating! Let us take care of the rest.

LOVE NOTES

Katie & Josh

Perfect Wedding Day!

Allison, Katie and Lauren were amazing day of coordinators! I am an event coordinator by trade so I was nervous handing off my big day to someone else, but things couldn't have gone better. They spent time with me leading up to the wedding making sure they knew my vision and what was most important for me for the day, and executed it exceptionally. The entire day went off without a single hitch (or if there was one, they handled it perfectly because I had no idea). My family especially appreciated them, because they knew everything was in good hands and they could enjoy the wedding themselves without having to do anything. I would absolutely recommend!

Frances, Mother of the bride

These girls made the wedding day so easy!! As the MOB, I didn't stress about anything and had so much fun all day because I knew they had everything under control! Loved them!!
