It's important you find someone whose work you LOVE. I believe it is just as important you find someone who will bring out the best of who you are in your photos! After all, your wedding day is meant to be an amazing celebration. I'm Maria, the owner and photographer of Maria Gloer Photography. I fell in love with weddings a few years ago, and thought I'd do well being a wedding planner. One day I picked up a camera with the intentions of making some extra money on the side, but as it turns out, I found a passion I never knew I had.

Photography has changed my life, and now I want to capture life-changing moments for you! I am so thrilled you have considered me to be part of such an incredible day! The truth is your wedding is a once in a life time occasion. The two of you are about to start one of the most challenging, rewarding, exciting, life-changing experience of your lives together, and choosing someone to capture that day through images is a big decision.

So please, take your time flipping through these pages, and if you have any questions or need any help, I'm always here for you!

About My Work

I bring film photography elements into my digital photos (also known as film emulation), which means I embrace light, brightness, movement, a little blur (the occasional intentional kind), and some noise and grain (again, intentional and occasional). I believe in balancing the curated with the candid. My wedding galleries consist of a mix of carefully posed images mixed with beautifully organic candid moments, and highlights of details of your wedding day. Those characteristics are what makes my work what you see in my images.
