Black Label Wedding Collection

Our top wedding collection begins with 10 hours coverage with two skilled photographers on your Wedding Day! This is perfect for capturing details, shots of the bride and groom getting ready beforehand all the way through your first dance as husband and wife, and well into your big party! Your beautiful 12x12 linen wedding album will contain about 50-75 images from the day. (This is just about the perfect number of shots to tell a great story from beginning to end. We do the work and send a pre-designed proof album to you!) Your USB Drive will contain your ENTIRE Final Image Collection (approximately 500-600 images) in High Resolution for all your personal printing needs (our print release is included on the drive), and also perfectly rendered in Low Resolution for all your digital devices and online social media needs. (This means your images won't be distorted and compressed and just downright looking weird when you share them with all your friends!)

When your ready, let us know which image you want created into a beautiful work of art for your home on your 24x36 Gallery Art Canvas.

Add A Just Married Session

What could be better than putting that dress back on one more time! And especially a day or two after the wedding when you are blissfully happy yet not anywhere near as stressed as you may have felt the day before! We will work together to pick the perfect spot and take our time to create the images of your dreams—no rush, no stress, plenty of fun!

A Just Married Session is so cool we can't fit it all in here!
