We will put together a ceremony timeline and planning consultation to make sure everything goes smoothly

Dancing on a Cloud adds that magical touch and makes for amazing First Dance pictures. You will be amazed on how many pictures your guests will take of your first dance.

We've seen this used regularly for first dances or for formal introductions

Customized Monogram to project your names, initials and/or wedding date on any floor or wall.

Up-Lighting! You get up to eight to place anywhere you want. We can do any color and place them anywhere. We are not limited by wires. You get up to twelve to place anywhere you want. Wireless Up-Lights add color to the walls, head table or cake table. Our lights can be placed almost anywhere and we have thousands of colors to choose from. This lighting will create a visual effect in the colors of your choosing around your head table where all the eyes will be focused.

Head table Up-Lighting! You get up to four to place anywhere. This for brides and grooms who want up lighting but want keep on budget. We customize the setup around the head table which brings the attention to the couple and makes it the center focal point of the room. We can do any color and place them anywhere. We are not limited by wires.

Wedding Cake Spotlight! You get up to 6 Pin spots to spot light items on head table like flowers, the runner, or any table piece.

Dance floor Intelligent Lighting to bring the wow factor the dance floor (2-4 dance lights). Your celebration will take a whole new level of a party atmosphere as the lights move in time with the music. You get a customized computer controlled dance lighting package that fits your decor and venue.

Pin Lights! You spend so much on cakes and flowers why not bring the wow factor and make them pop by using Pin Lights to highlight your beautiful cake, centerpieces or sweetheart table. You get up to 12 pin spots to highlight that beautiful cake, flowers, or whatever you want.

Bubble Machine for Your Wedding

We've discovered that many people aren't too sure about using a bubble machine at their wedding or other formal event ... until they see it in action. Like the fog effect, we've seen the bubble machine used frequently for ceremony exits after your first kiss as a married couple or during the first dance for that romantic fantasy feeling. We have also used it many times as an exit at the end of the night. Unlike the fog machine, which introduces a subtle, comforting feel, bubbles are akin to happiness and celebration, which is the exact tone you want to establish as you leave your friends and family.

Star Lighting / Star's at Night Lighting turns any room or event space into a universe of light. You can dine or dance under the stars; the possibilities are endless. It will even surprise you with the occasional shooting star.

Wedding Charging Station Keep the Photos Coming! By the time your wedding reception starts, your guests phones will most likely be in need of a serious charge. They have been busy taking numerous pictures of your beautiful ceremony. I am sure they would also like take some pictures celebrating with you. Instead of having your guests searching the walls for awkward places to plug in why not provide them with convenient discreet wedding charging stations?

Café Lights, Lanterns and Curtain Lights hung indoors or out, they provide a distinctive and classic look to your venue.

Drapery

Up to 50 feet wide and up to 20 feet tall white drapery

Cloth Background

Up to 20 feet wide and up to 10 feet tall white or black back ground drapery

Customized Lighting and Drapery packages

Pricing on our service depends on several factors. The most important is the area and nature of the space to be illuminated as this will determine how many lighting fixtures are required to do the job. We offer packages as well as à la carte pricing on individual lighting and drapery services. Please contact us and we'll send you a quote that reflects your specific requirements.
