

Flippin' Awesome!

Why WedFlik?

TWO WAYS TO USE WEDFLIK

In Addition To Your Professional Videographer Some choose both a videographer and WedFlik. Let the videographer set up shop at the wedding and reception and do what he does best. But you can use your WedFlik cameras days before the big day to film all the preparations and week long events such as the rehearsal dinner, bridesmaids luncheon, morning of the big day and the ride over to the wedding, not to mention just moments before walking down the aisle. Don't forget about the post wedding activities such as the family brunch or present opening. Your guests will capture the behind the scenes images and have a great, memorable time at all your wedding events!

WedFlik As Your Professional Videographer You want your special day captured on film to one day show your kids and grandkids but you just don't have the budget for a professional company. WedFlik is a perfect solution. With our five cameras, you'll be able to cover more area, capture more highlights, and we will create a unique, personal video production that you'll cherish for a lifetime without making a huge dent in your wedding checkbook.
