PHILOSOPHY

The Valeria Photography Studio has been photographing weddings for more than 30 years, completing hundreds of assignments, making it among the most venerable photography studios in Rome.

Through many years of activity, the Studio has successfully photographed a great number and variety of marriages, thanks to the dedication, discretion, and personal attention given to each client by Valeria Santoni.

We work personally with each couple, from the moment the bride and groom are dressed until the last piece of the wedding cake is sliced. We never take commercial photos - our photographs are always refined and elegant.

The pictures that the couples choose will be optimized in post production, guarantying a highly professional product. We personalize every service according to the desires and tastes of our clients, so that we can offer them a unique and unrepeatable memory.
